Zoho Creator: Platform Walkthrough Report

Akshat Singh

Roll No. 241401008

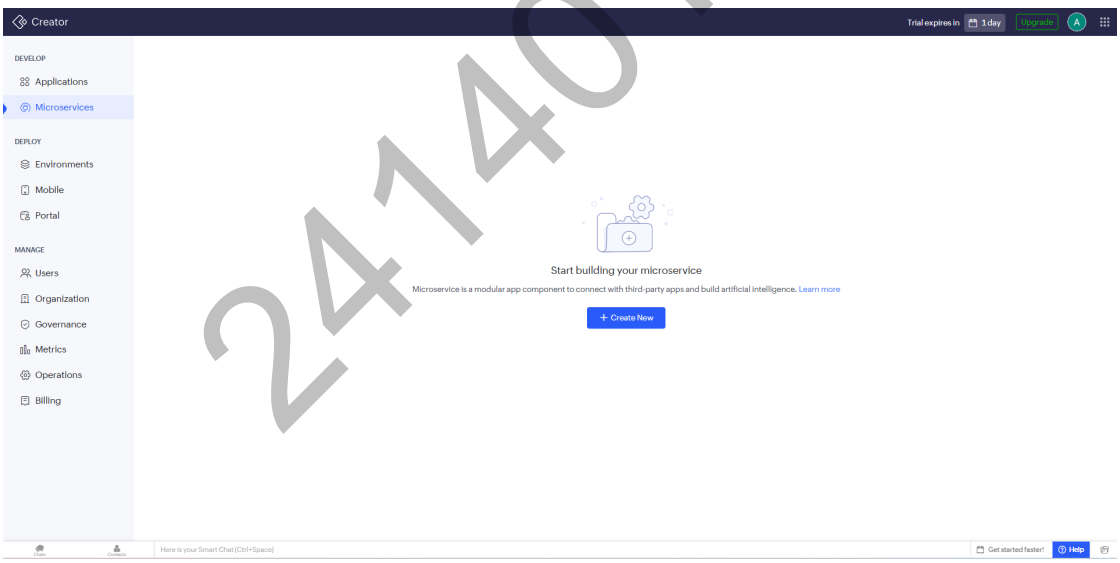

241401008

1. Applications Dashboard

The Zoho Creator DEVELOP > Applications section, showing the three applications built so far: Library Management System, my second app, and My first Creator app, each created on Jul 27, 2026.

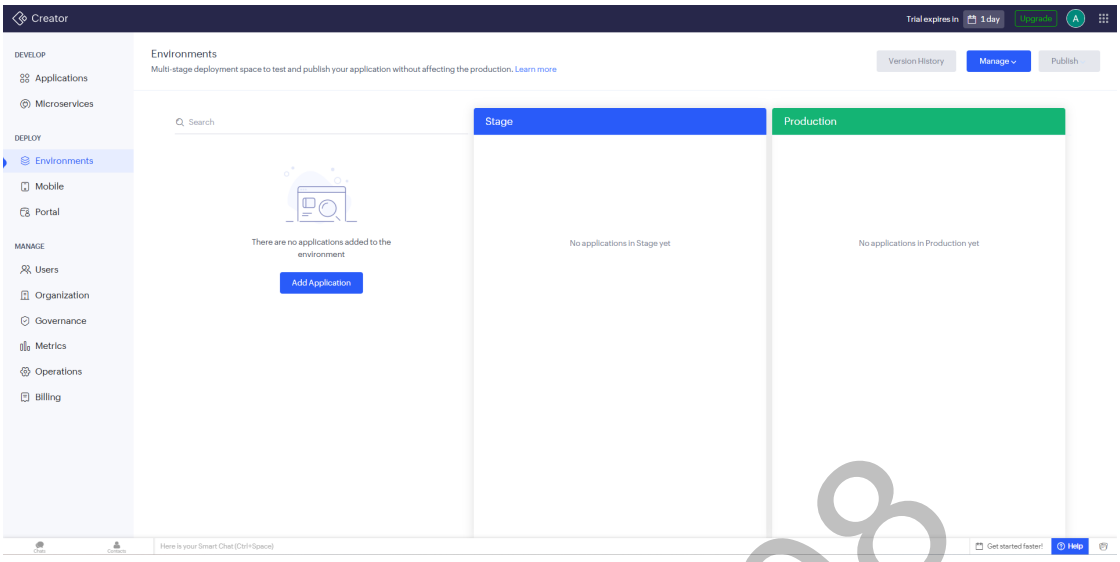

2. Microservices

The Microservices section, currently empty, prompting the user to start building a microservice to connect with third-party apps and add AI capabilities.

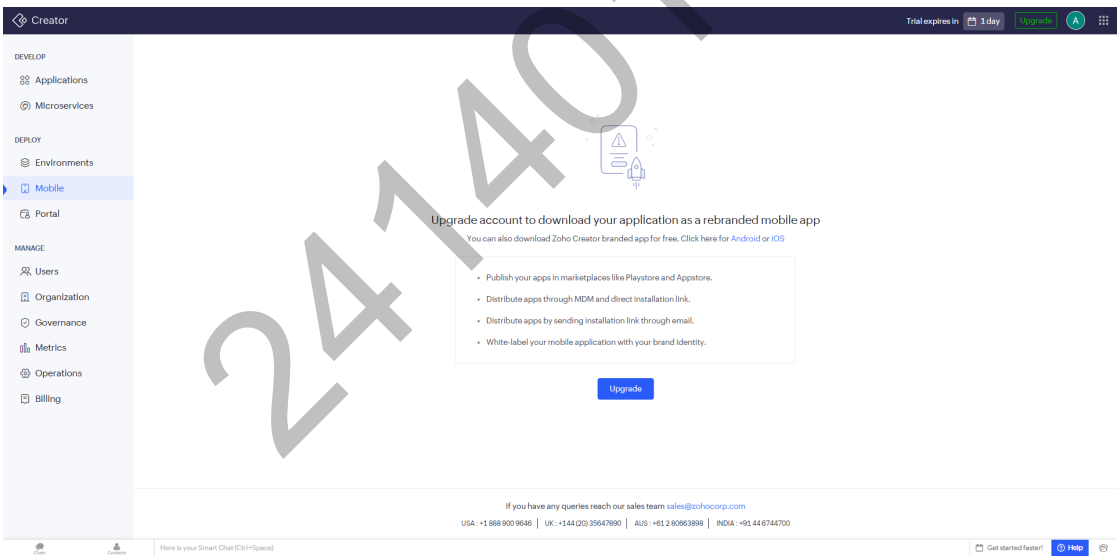

241401008

3. Environments

The Environments page under DEPLOY, showing the Stage and Production deployment spaces, both empty with no applications added yet.

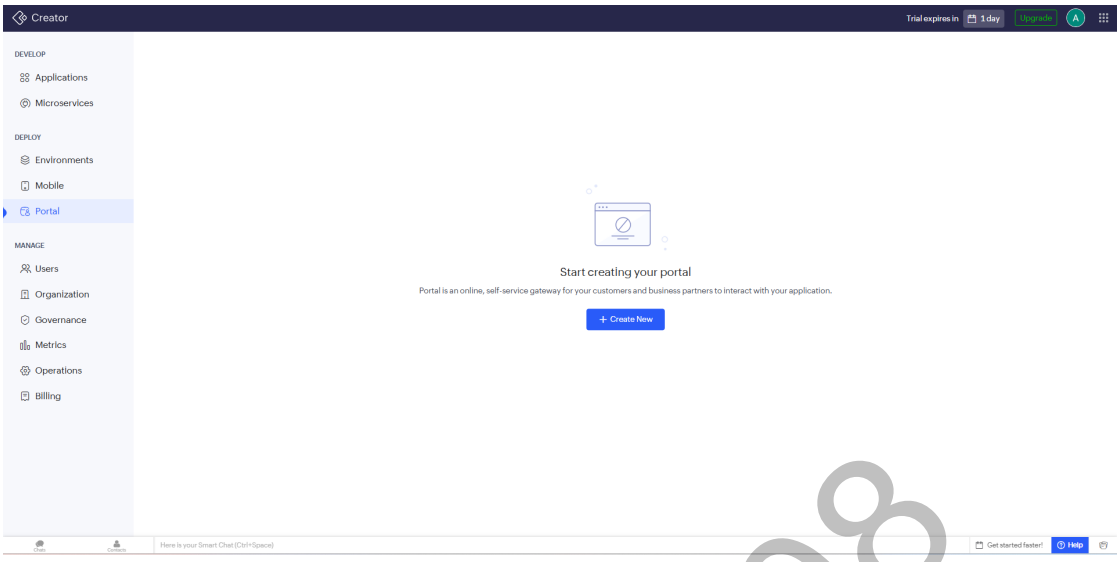

4. Mobile

The Mobile section, prompting an account upgrade to publish a rebranded mobile app, with an option to download the free Zoho Creator branded app for Android or iOS instead.

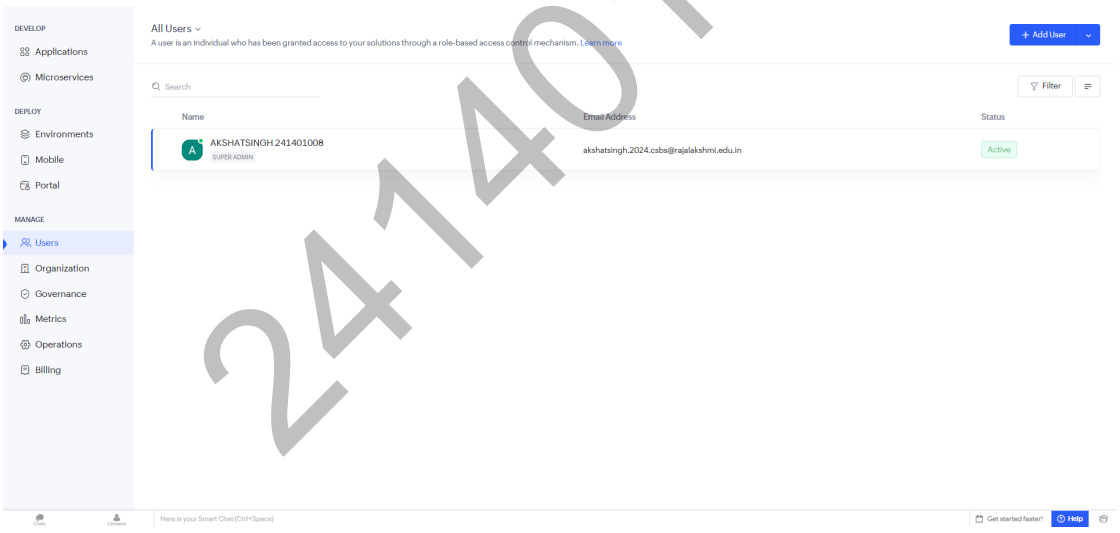

24140 1008

5. Portal

The Portal section, currently empty, offering to create a self-service portal gateway for customers and business partners to interact with the application.

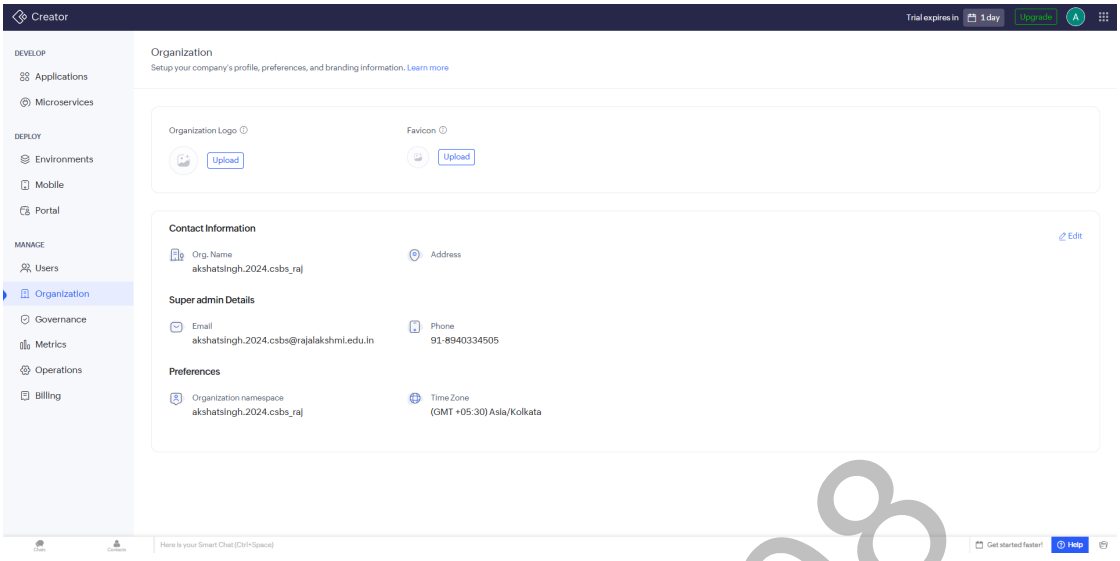

6. Users

The Users management page, listing the single active Super Admin user, AKSHATSINGH 241401008, along with their registered email address.

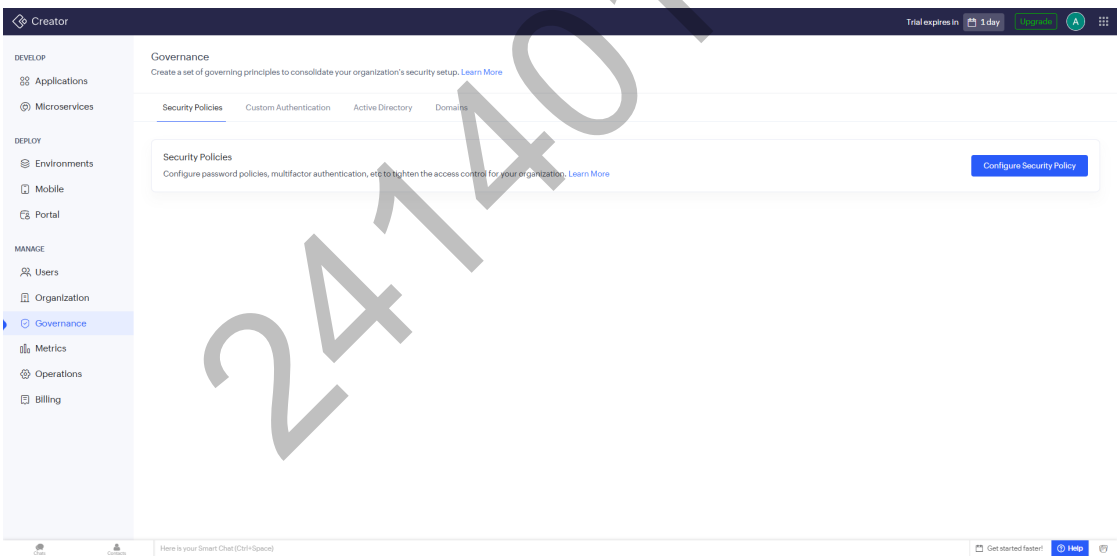

241401008

7. Organization

The Organization settings page, displaying the organization name, super admin contact details (email and phone), and preferences such as namespace and time zone (Asia/Kolkata).

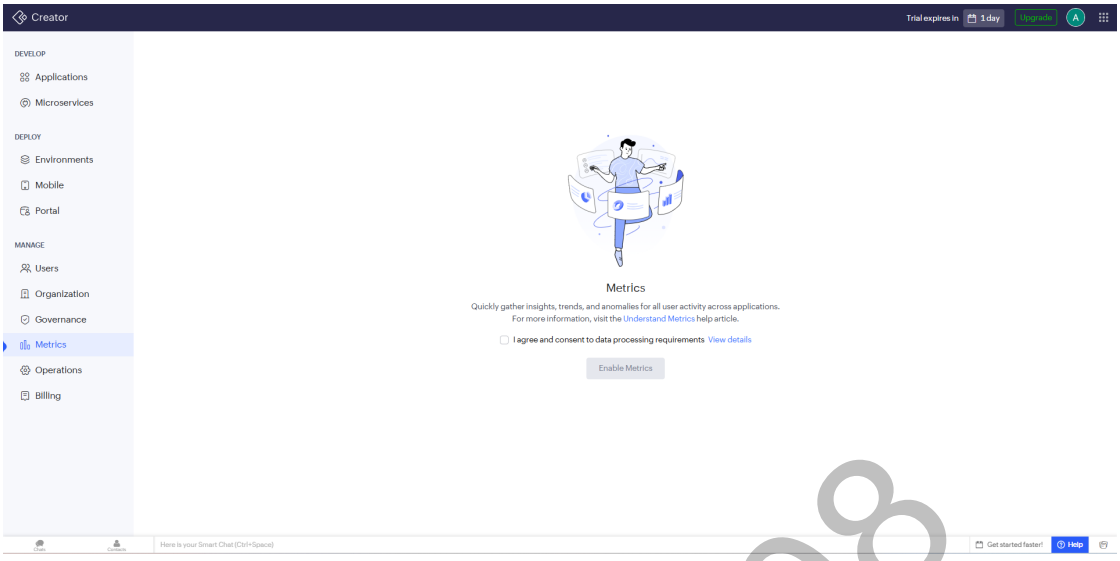

8. Governance

The Governance section's Security Policies tab, where password policies, multi-factor authentication, and other access controls for the organization can be configured.

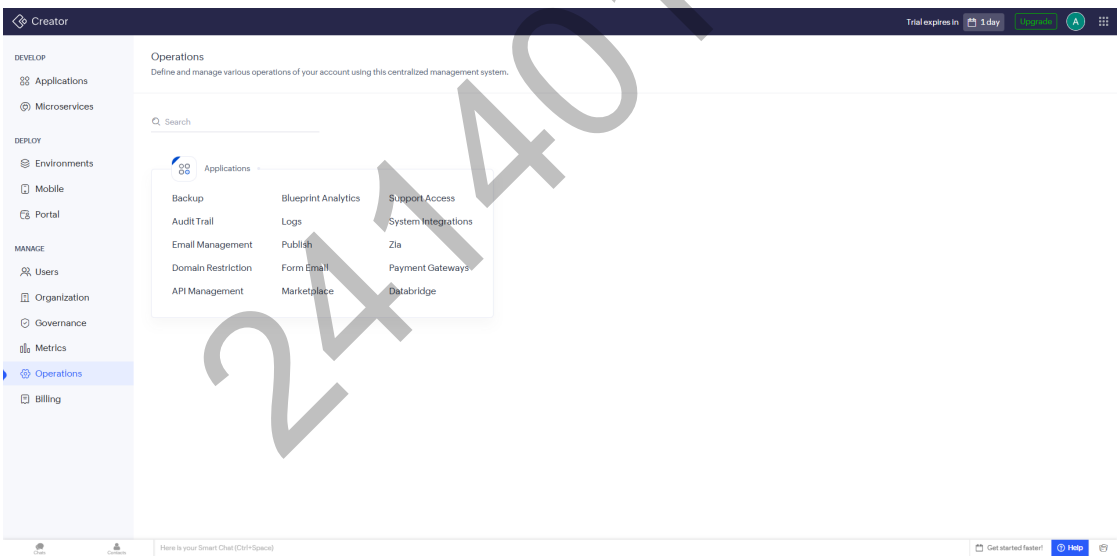

2414O1008

9. Metrics

The Metrics page, which requires consent to data processing before it can be enabled to gather insights, trends, and anomalies across all applications.

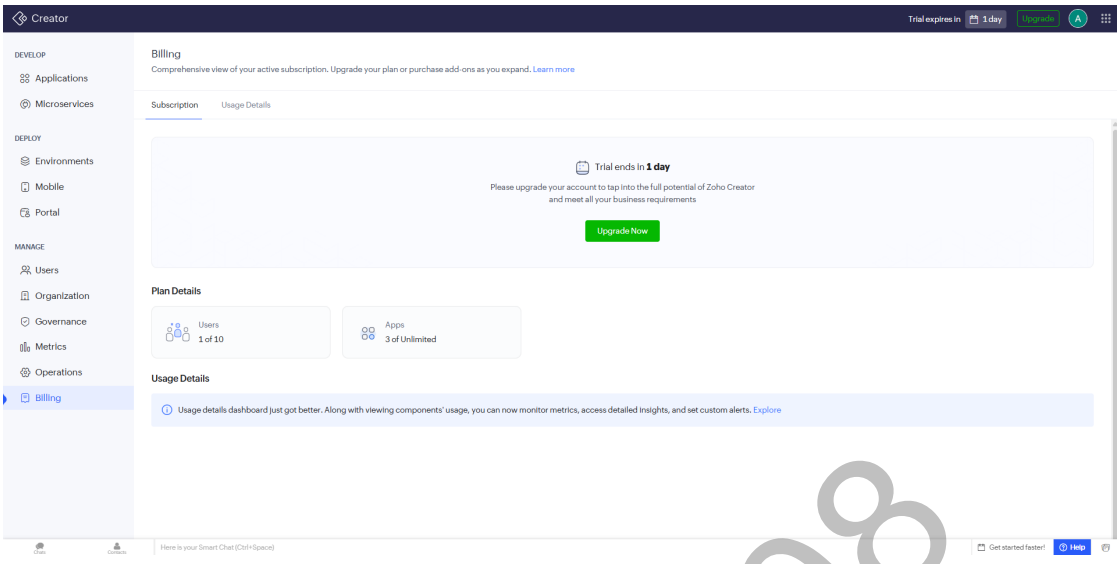

10. Operations

The Operations page, listing centralized management tools such as Backup, Audit Trail, Email Management, API Management, Logs, Publish, Marketplace, and System Integrations.

24140108

11. Billing

The Billing page, showing the subscription overview with the trial ending in 1 day, plan usage of 1 of 10 users, and 3 of unlimited apps, along with an option to upgrade.
